w04-p1: counter demo

w04-p2: P5_61 -- Tours display two fixed data

The screenshot displays a web development environment with three main components:

- Code Editor (Left):** Shows the HTML and JavaScript code for a web application. The HTML includes a header, a main content area with a list of tours, and a footer. The JavaScript code defines a `tours` array and a `displayTours` function that uses `document.querySelector` to update the DOM. A red box highlights the `displayTours` function and the `DOMContentLoaded` event listener.
- Browser Preview (Middle):** Shows the rendered web application. It features a header with the title "Our Tours", a main content area with a list of tours, and a footer. The tours listed are "Paris in 7 Days Tour" and "Ireland in 14 Days Tour". A red box highlights the "Paris in 7 Days Tour" card, which includes a large image of the Eiffel Tower and a "Not Interested" button.
- Chrome DevTools Console (Right):** Shows the JavaScript code being executed in the browser. It displays the `tours` array and the `displayTours` function. A red box highlights the `displayTours` function and the `DOMContentLoaded` event listener.

The image is a composite of three screenshots illustrating a web development project.

- Left Screenshot (VS Code):** Shows a file named `p5_61.js` with the following code:

```

1  console.log('tours', tours);
2
3  const section = document.querySelector('.section.center');
4
5  // Codium Refactor | Explain | Generate | Doc | X
6
7  const displayTours_01 = () => {
8    const tourInfo = tour.map((tour) => {
9      const {id, info, local_img, name, price} = tour;
10     return {
11       'article class="single-tour"':
12         `
13         
14         <div class="tour-info">
15           <h4>${name}</h4>
16           <div class="tour-price">${price}</div>
17           </div>
18           <p>
19             ${info}</p>
20             <button read more>/button>
21             </p>
22             <button class="delete-btn">not interested</button>
23             </div>
24           </article>
25         `
26       },
27       ...tourInfo
28     });
29     section.innerHTML = toursInfo;
30   }
31
32   window.addEventListener('DOMContentLoaded', () => {
33     displayTours_01();
34   });

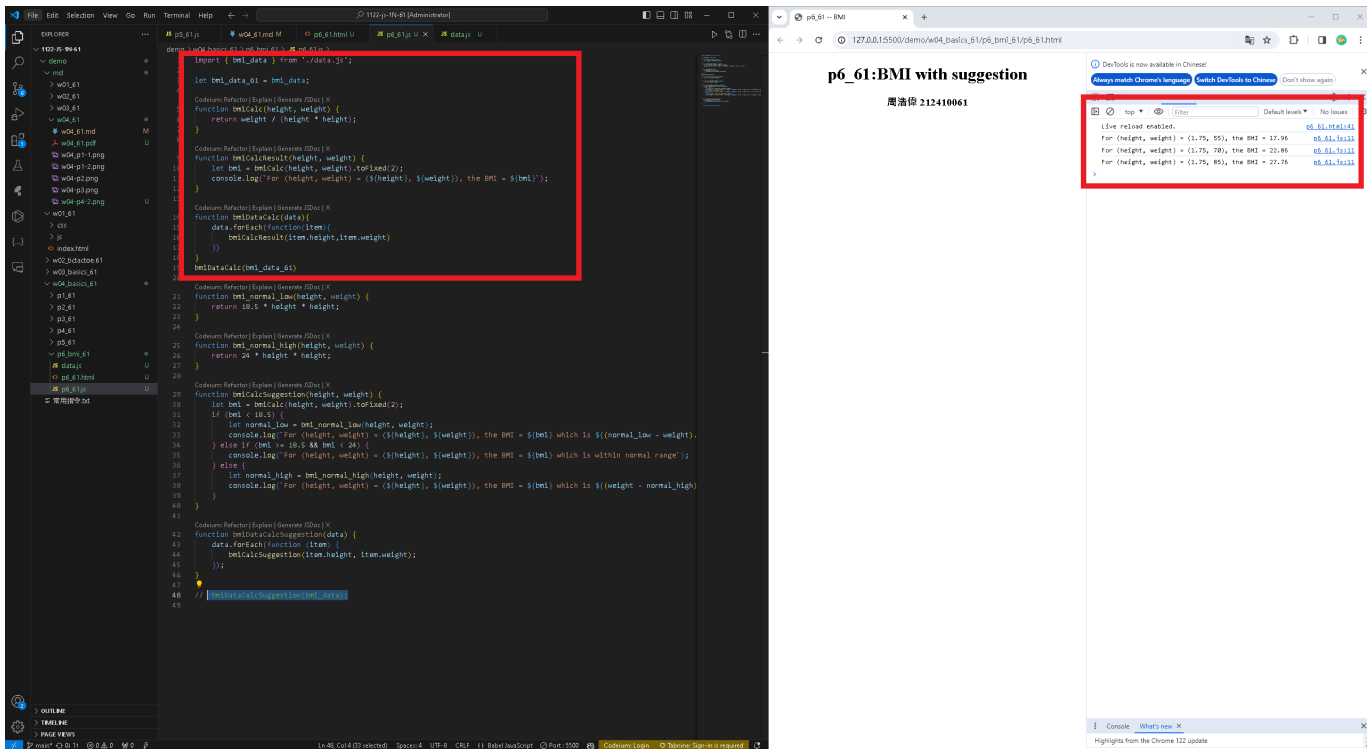

```
- Center Screenshot (Browser):** Shows a web page titled "Our Tours". It features two tour cards:
 - Best Of Paris in 7 Days Tour** (1995): Includes an image of the Eiffel Tower and a description: "Paris is synonymous with the finest things that culture can offer — in art, fashion, food, literature and ideas. On this tour, your Paris-savvy Rick Steves guide will immerse you in the very best of... [Read More](#)". A "Not interested" button is at the bottom.
 - Best Of Ireland in 14 Days Tour** (3895): Includes an image of a coastal town and a description: "Rick Steves Best of Ireland tour kicks off with the best of Dublin, followed by Ireland's must-see historical sites, charming towns, music-filled pubs, and seaside getaways — including Kinsale, the D... [Read More](#)". A "Not interested" button is at the bottom.
- Right Screenshot (Chrome DevTools Console):** Shows the JavaScript code being executed, with a red box highlighting the tour data objects:
